Provision of Information on Non-Consolidated Results of Orders Received and Net Sales

Since its listing, Harmonic Drive Systems Inc. (the “Company”) has voluntarily disclosed its non-consolidated financial results as “Notice Regarding Non-Consolidated Results of Orders Received and Net Sales” separately from its consolidated financial results to help investors understand the Company’s business conditions. However, in addition to such information, the Company has already provided more detailed numerical data and other supplementary information widely to investors by posting them on its website. With regard to orders received and net sales of the Harmonic Drive Systems Group, considering the fact that the ratio of consolidated results to non-consolidated results has recently increased compared to the past, we have decided to disclose the information on a consolidated basis, which more accurately represents the actual status of the company. Accordingly, starting from the current period (the first quarter of the fiscal year ending March 31, 2023), we have decided to discontinue the disclosure of the “Notice Regarding Non-Consolidated Results of Orders Received and Net Sales,” and to position non-consolidated information as supplementary information to the consolidated information, which will be summarized and posted on the Company website.

1. Website address for publication of non-consolidated orders received and net sales
URL: <https://www.hds.co.jp/english/ir/achievements/accounts/>
2. Publication date
To be posted within a day or two of the earnings announcement
