Announcement of mold renewal due to transfer of production of die-casting processes for die-cast parts used in FHA-C Series products

To whom it may concern

Thank you for your continued support of HDS products.

We will be renewing the molds for the die-cast parts used in FHA-C Series products due to a change in our die-casting contractor. This is described below.

Thank you.

Details

1. Applicable products

FHA-C series (model Nos. #17, #25, #32, #40)

2. Details of the change

We will be renewing the molds for the die-cast parts used in the applicable products, due to a change in our die-casting contractor. For details of the change, refer to Figure 1.

Neither the product models nor the HDS product numbers will change as a result of this.

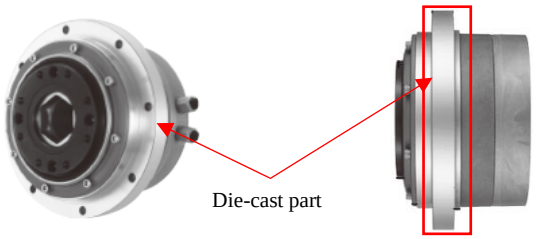

Figure 1: Part changed (photos taken from catalog)

3. Reason for the change

We will be renewing our die-cast molds due to transferring production to a new die-casting contractor, as a result of our current die-casting contractor withdrawing from the business.

There will be no changes to die-casting methods and materials used as a result of this change, and there will be no impact on product appearance or characteristics.

4. Timing of the change

The changes will be made separately for each model number, beginning with products shipped in December 2026.

If you have any questions regarding delivery time details for the initial batch of products released following this change, please contact HDS sales support.

5. Identifications for changed products

・This change will cause no differences in the confirmation drawings and specification sheets.

・We will ensure traceability for this change by retaining a record based on serial numbers.
