To whom it may concern

Harmonic Drive Systems Inc.

Notification of change of container for industrial oil that is attached to a product and separately sold

I hope your company is continuing to prosper. Thank you very much for your continued patronage of our products.

This notification is to inform you that the container for the industrial oil that is attached to our company's product and sold separately has been changed.

Details of the subject matter are outlined below. We cordially solicit your continued help and encouragement.

Yours sincerely,

DESCRIPTION

1. Applicable products

Industrial oil that is attached to a product and sold separately

2. Details of the change

For the comparison between the existing product and replacement item of the industrial oil's container (can), refer to [Table 1]. For the external appearance, refer to [Table 2].

[Table 1] Details of the change

Capacity	Item	Currently used product	Substitute product
100cc	Can size	External diameter ϕ 53 height 84	External diameter ϕ 53 height 84
	Outer diameter of cover	ϕ 27	ϕ 27
	Inner cover	Yes	Yes
500cc	Can size	Width 44 x 97 x height 159	Width 62 x 122 x height 109
	Outer diameter of cover	ϕ 27	ϕ 45
	Inner cover	Yes	Yes
1L	Can size	Width 59 x 115 x height 184	Width 62 x 122 x height 188
	Outer diameter of cover	ϕ 43	ϕ 45
	Inner cover	No	Yes

* The color of the external appearance is silver for both the existing product and replacement item. There is little difference.

3. Reason for the change

The existing product has been changed to the replacement item because the manufacturer of the industrial oil's container (can) has discontinued the business.

Although the shape of the can has changed, there is no change in the product's performance and specifications.

4. Period of the change

The change will be implemented through a running change as soon as the present stock has run out.

100cc: Around December 2023

500cc: shipment from December 2022

1L: shipment from December 2022

5. Identifications before and after the change

With respect to traceability before and after the change, changes are recorded by our company based on the product model number. The old and new products will not be mixed within a single lot.

[Table 2] External Appearance

		Side1	Side2	Top, Inner cover
100cc	Currently used product		/	
	Substitute product			
500cc	Currently used product
